

The Drake Hotel understands the importance of preserving our environment. In an effort to increase the sustainability of the hotel, we've implemented the following practices and programs:

- Paint products, batteries and used aerosol cans are recycled
- Use of energy-saving light bulbs
- Mixed stream hotel recycling program
- Pens made from recycled materials are used
- No linens used for meeting classroom set-up tables
- Water served in pitchers, not bottles
- Unused guest room amenities are donated to a local homeless shelter
- Hilton Green Initiative
  - Bed linens are replaced after the fourth occupied day or upon guest request
  - Bathrooms linens may be reused by guests
- Cocktail napkins in outlets are green seal-approved and 100% recycled
- Dining outlets feature locally-farmed and organic products on all menus

In addition, all hotel employees strive to contribute to the overall sustainability of the hotel by utilizing paper recycling bins and reducing energy and water usage.
